Allowable Subject Matter

1. This office action is in response to the amendment filed on 11/26/04.
2. Claims 7, 9, 32, 34 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter:

Applicant has cancelled claims 1-6, 8, 10-31, 33 and amended claims 7, 9, 32 34 in compliance with the office action dated 08/23/04. Upon further consideration, prior art of record (closest reference, Iwakiri et al. – US 5,509,020), taking individually or collectively, fails to fairly teach method and apparatus for rate decision, as claimed, the claimed subject matter “said rate decision block determining at least one final frame rate when said plurality of frame energy meet a desired conditions wherein said desired condition indicates whether a combination of said plurality of frame energies exceeds a threshold energy, wherein said combination of said plurality of frame energies comprises obtaining respective results of multiplications of each one of said plurality of frame energies by respective parameters and adding said respective results” in independent claim 7 and similarly in independent claims 9, 32, 34. Thus, claims 7, 9, 32, 34 are found to be novel and unobvious over prior art of record.
